Florida forms and certificates

Expanded companion packet | Print only the form needed

Choose the correct document

A certificate records a notarial act; an affidavit or trust certification contains the signer's own statements. The signer, recipient, or attorney specifies the required act. These blank templates do not resolve legal questions about a transaction.

Complete before signing and sealing

Use the actual date and your Florida county. Identify the appearing signer, complete the certificate, sign as commissioned and apply your seal. Never sign or seal blank certificates. Attach loose certificates securely and identify the underlying document.

Appearance and remote notarization

Acknowledgments and jurats require the signer's appearance. Online options require a registered online notary and all applicable Chapter 117, Part II safeguards. A checkbox alone is insufficient. A jurat also requires an oath / affirmation and signing before you.

Special handling

The subscribing-witness and event requests are supplied as witness / observer affidavits. They do not authorize notarizing an absent principal or independently certifying that an event occurred. The deposition page certifies oath administration only, not the transcript.

Copy and entity certificates

Copy attestation is limited by F.S. 117.05(12). Do not attest copies of vital records or public records available from their official custodian. Entity acknowledgments record representative execution; they do not certify entity existence or authority.

Trust and powers of attorney

The trustee completes the trust certification. The separate trustee acknowledgment is optional if requested. A POA acknowledgment is separate from execution requirements; Florida generally requires two subscribing witnesses. Copy attestation does not establish a POA's validity.

Vehicle bill of sale

The packet includes unmodified HSMV 82050 from the Pasco Tax Collector. Follow its instructions; it has no notarial block. It does not replace all title-transfer requirements.

Duplicates combined

Partnership / Certificate for Partnership share one form. Copy Certification of Electronic Document appears once.

Contents and official references

Keep these reference pages with your master set

01 Document Copy Certification
